Energy and Power Production Fuels

Survey of Jet Fuels Procured by the Defense Energy Support Center

Authors: [DEFENSE ENERGY SUPPORT CENTER FORT BELVOIR VA](#)

Abstract: This first report is a compilation of data which are representative of the quality of jet fuels (JP4, JP5, and JP8) purchased by the Defense Energy Support Center (DESC) worldwide. This information was obtained from our Petroleum Quality Information System (PQIS), an automated system which contains product quality history. This database contains over 6000 records of aviation fuel deliveries, which represents 8.5 billion gallons of product. The data contained in this report are summarized to provide statistical information on average, minimum and maximum values of selected test properties for use by our customers in researching specification or quality issues. Although this report covers seven years of quality history, future reports will be published on an annual basis.

Limitations: APPROVED FOR PUBLIC RELEASE
Pages: 77
Report Date: 09 JUN 1998
Report Number: A133263
