Energy and Power Production Fuels

**Petroleum Quality Information System Jet Fuels Data**

Authors: [DEFENSE ENERGY SUPPORT CENTER FORT BELVOIR VA](#)

**Abstract:** This is the second report, summarizing test results of aviation fuels received in calendar year 1997 with comparison statistics from calendar year 1995 and 1996. Data is stored in our Petroleum Quality Information System (PQIS) Database which currently contains 4,385 records, representing just under 6.8 billion gallons of product, starting from January 1, 1995. Many DESC personnel contributed to its development, maintenance and data entry functions. Special thanks go to the field offices of DCMD and DCMDI for their response in providing information for shipments that were missing from the database. The result of this effort was an increase by almost 1/2 billion gallons of jet fuel represented in the report. The JP4 representation increased to 100% for both 1996 and 1997. For 1996, JP5 representation increased from 24% in the 1990-1996 Report, to 87% in this Report. JP8 representation also increased from 57% to 81% for calendar year 1996

**Limitations:**  APPROVED FOR PUBLIC RELEASE  
**Pages:** 49  
**Report Date:** 30 DEC 1998  
**Report Number:** A233263
