

For Kids

Olympic's Living Classroom

Studying in Olympic's classroom of wild coast, ancient rain forest, and rugged mountains can be a very *wet* experience. Muddy too. But what wonders await in this living classroom!

Are you curious about this diverse wilderness park? Would you like to explore a rain forest valley or hike on a glacier? *Do you have a school project due soon?*

As you explore our website you will find [brochures and handouts](http://www.nps.gov/olym/planyourvisit/brochures.htm) (<http://www.nps.gov/olym/planyourvisit/brochures.htm>) that provide information on a variety of park topics.

You can also take a [Virtual Tour](http://www.nps.gov/olym/forkids/onp-jigsaw-puzzles.htm) (<http://www.nps.gov/olym/forkids/onp-jigsaw-puzzles.htm>) of our park and its resources by completing jigsaw puzzles online! We hope you will be able to visit this living classroom someday. *Just be sure to pack your umbrella!*
