Table F-1: Public Scoping Comment Summary ........................................... F-4
F Public Participation

This appendix includes information about the public’s participation in the development of the Northwest Training Range Complex (NWTRC) Environmental Impact Statement/Overseas Environmental Impact Statement (EIS/OEIS). The first part of this appendix summarizes the public scoping process that began with the publication of the Notice of Intent (NOI) in the Federal Register in July 2007. The scoping period allowed a variety of opportunities for the public to comment on the scope of the EIS/OEIS, and included 5 public scoping meetings.

The second part of this appendix addresses the public’s involvement in reviewing and commenting on the Draft EIS/OEIS. This section includes a summary of the Navy’s public involvement efforts, including information about public hearings, media advertisements and notifications, letters to stakeholders, and meeting flyers. As part of this phase of public involvement, the Navy received comments to the Draft EIS/OEIS from individuals, agencies, elected officials, organizations, and tribes. These comments, and the Navy’s response to them are addressed in Appendix G.

F.1 PROJECT WEBSITE

A public website was established specifically for this project, http://www.nwtrangecomplexeis.com/. This website address was published in the initial Notice of Intent and has subsequently been re-printed in all newspaper advertisements, agency letters, and public postcards for both the Notice of Intent to Prepare an Environment Impact Statement and Notice of Availability of the Draft Environmental Impact Statement. The Draft EIS/OEIS, Scoping Meeting Fact Sheets, and various other materials have been available on the project website throughout the course of the project.

F.2 PUBLIC SCOPING

The public involvement process began with the issuance of the Notice of Intent to Prepare an Environmental Impact Statement in the Federal Register on July 31, 2007. This notice included a project description and scoping meeting dates and locations. The scoping period lasted 60 days, concluding on September 29, 2007. Section F.2.2 describes the Navy’s notification efforts during scoping.

Five scoping meetings were held on September 10, 11, 12, 13, and 15 in the cities of: Oak Harbor, WA; Pacific Beach, WA; Grays Harbor, WA; Depoe Bay, OR; and Eureka, CA respectively. The scoping meetings were held in an open house format, presenting informational posters and written information and making Navy staff and project experts available to answer participants’ questions. Additionally, a tape recorder was available to record participants’ oral comments. The interaction during the information sessions was productive and helpful to the Navy.

Scoping participants could submit comments in five ways:

- Oral statements at the public meetings (as recorded by the tape recorder);
- Written comments at the public meetings;
- Written letters (received any time during the public comment period);
- Electronic mail (received any time during the public comment period); and
- Comments submitted directly on the project website (received any time during the public comment period).
F.2.1 Public Scoping Comments

In total, the Navy received comments from 50 individuals and groups. Because many of the comments addressed more than one issue, 191 total comments resulted. This summary provides an overview of comments received through these means during the scoping period. Comments are organized by issue area.

F.2.1.1 Air Quality

Comments in this category expressed concern about the effects of military activities on air quality, including off-shore emissions that may be transmitted ashore by onshore winds. The EIS/OEIS should discuss which areas are in nonattainment of National Ambient Air Quality Standards.

F.2.1.2 Alternatives

Most comments regarding alternatives suggested that the Navy consider other sites to conduct its activities. Several comments expressed concern over potential impacts to the Olympic Coast National Marine Sanctuary (OCNMS).

F.2.1.3 Biological Resources – Marine Mammals, Fish and Marine Habitat

A significant number of comments received expressed concerns about impacts to marine life. Many of these comments specifically related to concerns about the effect of Navy sonar on marine life, such as marine mammals, fish, sea turtles, and sea invertebrates. Participants frequently requested that the EIS/OEIS consider alternative technologies to mid-frequency active (MFA) sonar. Several comments addressed protective and mitigation measures for marine mammals when sonar is used. Other comments identified specific policies that must be considered in the Navy’s analysis, such as the Marine Mammal Protection Act.

F.2.1.4 Biological Resources—Onshore

Several comments addressed the protection of birds, including shorebirds, seabirds, and migratory birds. Potential stressors to birds mentioned in the comments included bird strikes and noise disturbance. Among other terrestrial issues mentioned were concerns about habitat fragmentation and potential damage to intertidal, inland, or upland resources.

F.2.1.5 Cultural Resources

Participants commenting on cultural resources were primarily concerned with impacts to tribal access, and recreational and subsistence fishing. A few comments also addressed the issue of potential damage to historically or culturally significant sites.

F.2.1.6 Cumulative Impacts

Comments in this category expressed concern about the overall impact of past and present military activity in the Pacific Northwest and requested that the Navy initiate cleanup activities. Specific mention was made of the cumulative nature of activities at Naval Magazine Indian Island and the Naval Undersea Warfare Center Keyport Range. Additional comments requested that the Navy study the impacts of other actions, such as placement of wave electrical generation equipment, wind generators on Bear Ridge, and activities at Coast Guard Station Humboldt Bay and Eureka/Arcata airport.

F.2.1.7 Environmental Justice

Commenters requested that the EIS/OEIS identify any disproportionate impacts to disempowered groups of people.
F.2.1.8   Hazardous Materials
Of the comments regarding hazardous materials, the primary concern was the effects of depleted uranium use on the environment in general.

F.2.1.9   Health and Safety
One comment expressed concern about safety implications to commercial and recreational divers from MFA sonar. Another commenter was concerned about potential increases in aviation mishaps with increased unmanned aerial system use.

F.2.1.10  Noise
Several commenters expressed concern about any increase in airborne noise that could result from increased aircraft activity or offshore gun or bomb training.

F.2.1.11  Miscellaneous
Comments were received that requested that the EIS/OEIS consider the protection of surfing waves and for analysis of impact to research activities.

F.2.1.12  Mitigation Measures
Most comments regarding mitigation measures focused on marine mammals. For example, it was requested that the Navy employ better protective measures in future sonar exercises, such as conducting more monitoring and enforcing larger safety zones around ships. Several comments mentioned special mitigation measures in and around the OCNMS.

F.2.1.13  Policy/National Environmental Policy Act Process
Comments on the National Environmental Policy Act (NEPA) process included several that felt the information available during scoping was not adequate enough to generate comments. One commenter requested that the scoping period be extended beyond 60 days and that another scoping meeting be held in Seattle.

F.2.1.14  Recreation
One comment expressed concern about closing navigable waters for military activities. Such closures would negatively impact recreational fishing, boating and diving.

F.2.1.15  Socioeconomics
Several comments regarding socioeconomic concerns included questions about the effects on commercial shipping, commercial diving and commercial fishing.

F.2.1.16  Sonar and Underwater Detonations
Many comments mentioned concerns about the effect of Navy sonar on marine life, such as marine mammals, fish, sea turtles, and sea invertebrates. Participants frequently requested that the EIS/OEIS consider alternative technologies to MFA sonar. Several comments addressed protective and mitigation measures for marine mammals when sonar is used. Three comments specifically mentioned concerns about underwater detonations and their potential impact to the marine environment.

F.2.1.17  Water Resources
Comments regarding water resources included general concerns about the potential for water quality to be affected by military activities.
F.2.1.18 Summary of Comments

F.3 Public Review of the Draft EIS/OEIS
On December 29, 2008, the Navy published a Notice of Availability of a Draft Environmental Impact Statement/Overseas Environmental Impact Statement in the Federal Register. This notice announced the availability of the Draft EIS/OEIS for public review. In addition to availability for viewing and downloading on the project website, CD copies and hardcopy sets were delivered to stakeholders as described in Section F.3.3.5. A news release was also issued and two media briefings were conducted to inform the public of the impending Notice publication. The Notice of Availability was the start of the public comment period for the Draft EIS/OEIS. The public comment period ended on April 13, 2009.
F.3.1 Public Hearings

During the public comment period the Navy held public hearings to present information from the EIS/OEIS and to solicit public comments. Because the Navy’s proposed activities would continue to be concentrated in or off the coast of Washington, three of the five scheduled hearings were held in Washington. Some proposed activities could occur off the coast of Oregon and Northern California, so a public hearing was scheduled in each of those states. Due to a request in February 2009 from the Oregon Congressional Delegation, a sixth public hearing was added, in Tillamook, Oregon.

Public hearings were held on the following dates and locations: Jan. 27, 2009-Oak Harbor, WA; Jan. 28, 2009-Pacific Beach, WA; Jan. 29, 2009-Aberdeen, WA; Jan. 30, 2009-Newport, OR; Feb 2, 2009-Eureka, CA; and February 26, 2009-Tillamook, OR. Staffed poster stations with detailed information about the project and the Draft EIS/OEIS results were open for each meeting from 5:00 to 7:00 PM. During this time, Navy experts were available to answer questions and receive comments from members of the public. At 7 PM during each meeting a more formal, structured public hearing began in which the Navy presented a briefing on the Draft EIS/OEIS and the study conclusions. Following that presentation individuals provided oral comments. All oral comments were captured by a court reporter and have been reproduced later in this appendix. In addition to oral comments, the Navy received written comments during these hearings.

F.3.2 Project Website

The Navy provided a public website that has been active since the NOI was published in July 2007. On the day of the public release of the Draft EIS/OEIS, this website made available an electronic (PDF) version of the Draft EIS/OEIS for download and review. A comment form could be downloaded from the website to allow the public to submit written comments. The website also provided a paperless capability for members of the public to enter a comment directly.

F.3.3 Public Notification

The Navy made significant efforts at notifying the public to ensure maximum public participation during the scoping process. A summary of these efforts follows.

F.3.3.1 Federal Register Notice

A Notice of Availability was published in the Federal Register was on December 29, 2008. A Notice of Public Hearings was published the next day, December 30, 2008, also in the Federal Register. The Notice of Public Hearings announced a 45-day comment period scheduled to end on February 11, 2009. Following public requests that the comment period be extended, the Navy agreed and extended the period three times, ultimately providing a 105-day comment period that ended on April 13, 2009. The three extensions were published in the Federal Register on February 11, February 25, and March 18, 2009.

F.3.3.2 Newspaper Display Advertisements

Advertisements were made to announce the availability of the Draft EIS/OEIS and to announce the schedule and locations for public hearings as follows:
