Depleted Uranium: The Trojan Horse of Nuclear War

MORET / World Affairs – The Journal of International Issues
1jul04

[More by [Leuren Moret](#)]

Heat not a furnace for your foe so hot that it do singe yourself.
William Shakespeare (1564-1616)

Depleted uranium weaponry by the United States, defying all international treaties, will threaten all species on earth including the human species, and yet this country continues to ignore all knowledge of its destructive potential.

LEUREN MORET

The United States has staged four wars using depleted uranium weaponry, illegal international treaties, conventions and agreements, as well as under the US military law. The use of this illegal radioactive weaponry, which has already contaminated vast low level radiation and will contaminate other parts of the world over time, is indeed a global and an international issue. The deeper purpose is revealed by comparing regions contaminated with depleted uranium — from Egypt, the Middle East, Central Asia and the South of India — to the US geostrategic imperatives described in Zbigniew Brzezinski's *Grand Chessboard*.

Brzezinski's map of the Eurasian Chessboard

SOUTH

REGION:

"This huge
region, torn
by volatile

hatreds and surrounded by competing powerful neighbors, is likely to be a major battlefield, both for wars among nation-states and, more likely, for protracted ethnic and religious violence. Whether India acts as a restraint or whether it takes advantage of some opportunity to impose its will on Pakistan will greatly affect the regional scope of the likely conflicts. The internal strains within Turkey and Iran are likely not only to get worse but to greatly reduce the stabilizing role these states are capable of

al thinking and the "sources and methods" of the Agency.
