AUVSI Call To Action

A Call to Action for AUVSI Members in the UAS Community

The House FAA Reauthorization bill (H.R. 658) is scheduled to be on the floor of the U.S. House of Representatives later this week. The bill includes important provisions granting unmanned aerial systems access to the national airspace system. AUVSI, along with 30 other organizations, signed a letter in support of this bill that was sent to members of Congress. AUVSI also was successful in making a number of improvements to the UAS sections of the bill (both documents are posted on our [Advocacy Documents web page](#)).

We encourage you to [click here](#) to send a letter to your member of Congress supporting H.R. 658. The letter is prewritten, with a space for you to personalize the message. After you enter your contact information, you will automatically be connected you with your member of Congress. The letter should not take more than a minute to complete.

Please [click here](#) to take action and have your voice heard. Thank you!
