Community involvement is a critical part of the EIS/OEIS process and there are a number of opportunities for the public to participate throughout the EIS/OEIS development. The [Navy held six scoping meetings](#) in an open house format and public comments were received during the scoping period that concluded on September 14, 2010.

The Draft EIS/OEIS is available for public and agency review from May 11 to July 10, 2012. During this 60-day review period the public and agencies will have the opportunity to comment on the analysis presented in the Draft EIS/OEIS. Comments may be submitted at any public meetings scheduled for this EIS/OEIS, via U.S. postal mail, or directly on this project website.

Informational materials and project documents are available on this project website and at the following locations:
